CME Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American Society of Anesthesiologists and the Society of Neurosurgical Anesthesia and Critical Care. The American Society of Anesthesiologists is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The American Society of Anesthesiologists designates this educational activity for a maximum of 9.25 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Learning Objectives

Multimodal Imaging of General Anesthesia-Induced Loss of Consciousness
• To review the components of consciousness and the loss of consciousness induced by general anesthesia by various imaging techniques.

The Good, Bad, and Ugly of Brain Aging
• To review changes in the aging brain and how they affect CNS function.

Vulnerability & Response of the Old Brain to Injury
• To review how the aged brain responds to physiological insults.

The Editors Editorialize
• To highlight the most relevant publications in neuroanesthesia that, in the opinion of these editors, have been misinterpreted or overinterpreted.

Controversies in Neuroanesthesia: Does ICP Monitoring and Management Influence Outcome?
• To review the utility of intracranial pressure monitoring in the neurologically impaired patient.
